Empowering the Renewable Revolution

As solar, wind, and storage systems expand globally, the demand for reliable components grows. Our Supercapacitors, MOVs, and high-voltage connectors ensure maximum uptime, delivering the durability and safety renewable installations need for decades of operation.

OUR RECOMMENDATIONS

Cylindrical Supercaps
Cap-XX

Antennas - MMi
Harwin

NB-IoT / Cellular Modules
Lierda

Monitoring & IoT Connectivity
Shielding / SMT Shield-clip

HARWIN
Asia

Smart Grid & Power Distribution
LoRaWAN Gateways, Routers

Milesight

Monitoring & IoT Connectivity
NB-IoT / Cellular Modules

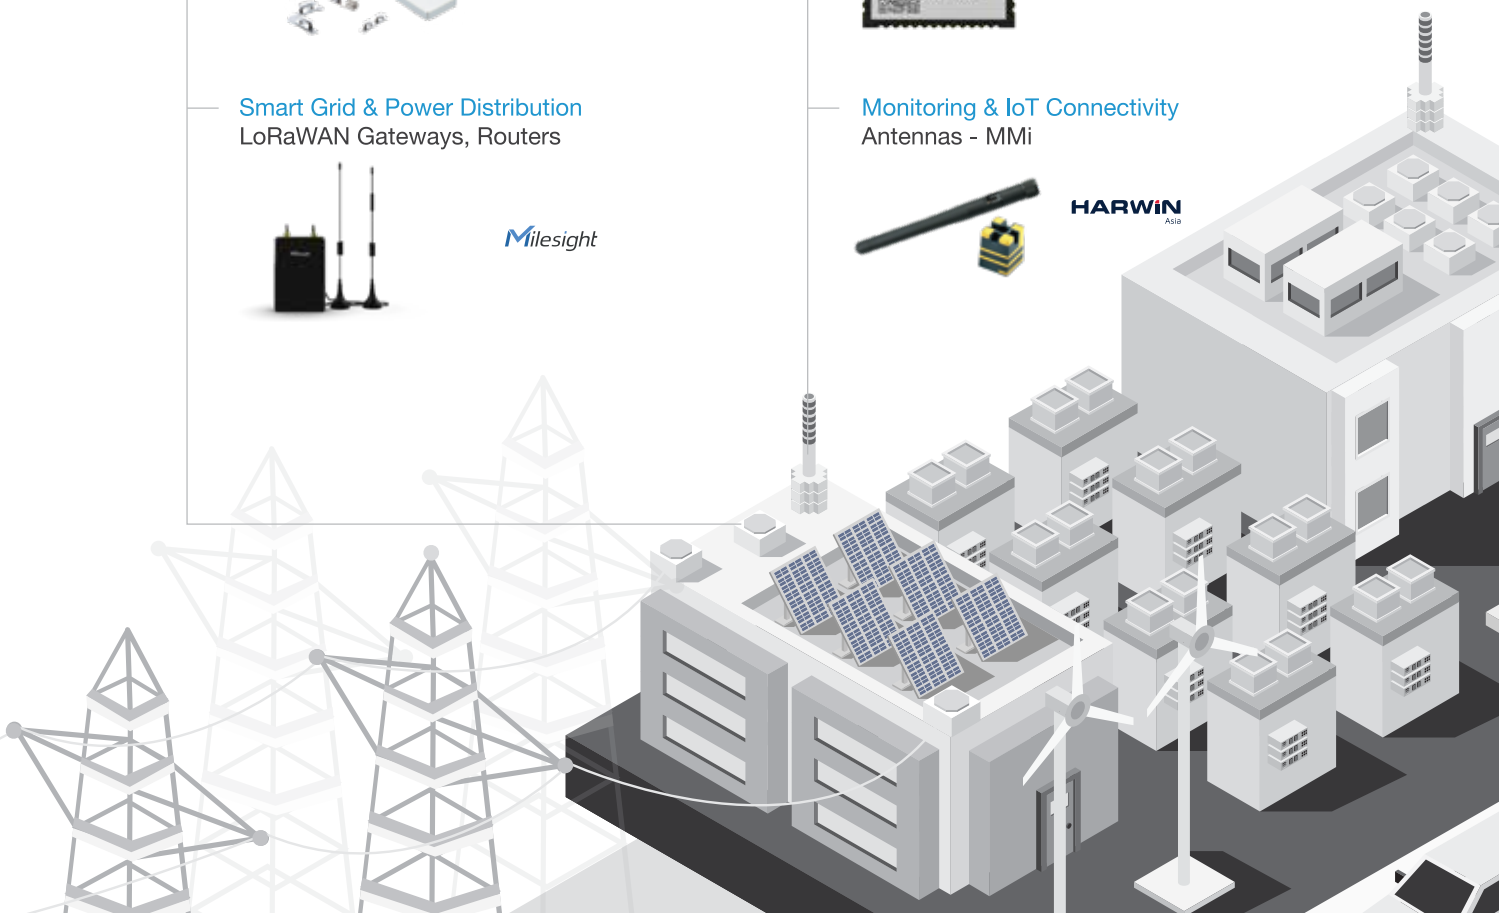

Lierda
利尔达

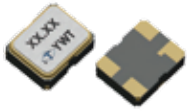

Monitoring & IoT Connectivity
Antennas - MMi

HARWIN
Asia

Power Conversion
& Conditioning
Oscillators

Power Conversion
& Conditioning
Inductors, MLCC

Energy Storage
& Battery Management
Cylindrical Supercaps

Energy Storage
& Battery Management
High Current
Heavy Copper PCBS

Energy Storage
& Battery Management
Sockets - EZI

Energy Storage
& Battery Management
Press-Fit Terminals - MMi

Renewable Power
Generation Electronics
High Voltage
MELF Resistors

Renewable Power
Generation Electronics
Thermistors (NTC / PTC)
